

Thomas Sawyer Jr., MA, LPC

As a Licensed Professional Counselor and former chaplain for the Texas Department of Criminal Justice (TDCJ), Thomas has more than nine years of experience in offender rehabilitation. And now he feels he has the honor of serving in solidarity with TIFA.

With 20+ years service in the Christian pastorate and several years as an LPC-Intern (Lubbock/Tennessee Colony), he has a continuing passion for community activism. He is currently working with CARE, Inc., as a community organizer. CARE's ultimate vision is "Promoting positive change through education, collaboration, and reform". From his counselor's perspective, reform in our prisons is elusive and to some invisible which may be why 2 out 3 offenders are being rearrested within 3 years. He want's to be a part of TDCJ's efforts to "...*Promote Positive Change in offender behavior...*".
